It's not enough to sell and install convertible tops. Auto upholstery shops that want to distinguish themselves as convertible top experts should also teach customers how to care for their new tops and even sell products, like

RaggTopp Cleaner and Vinyl Protectant, to help them do just that.

To get you started, we collaborated with *The Haartz Corporation*, the world's leading manufacturer of convertible topping, to put together a one-page care guide that you can print and leave in customers' cars.

This guide focuses specifically on how to care for vinyl soft tops. Next month, we'll publish another guide on how to do the same for cloth tops.

Check it out. Go to [www.thehogring.com](http://www.thehogring.com) to view the Care Guide: Vinyl Convertible Top.

## NOW AVAILABLE! CALL TODAY FOR YOURS!!

### 2016 MINI CATALOG

advice you need!

### TRIMMER TIP OF THE MONTH

One of our customers has invented a device that can ease the installation of convertible and vinyl tops. They have made an hexagon shaped hanging light bar that will help eliminate humidity in the summer and coldness in the winter. The bar is constructed out of square tubing and is 3 1/2' wide X 5' long with six 150 Watt heat lamp bulbs. It is suspended 3' above the car. The light bar has the same effect as sunlight and it's been a tremendous asset for his shop.
