## TRIMMER TIP

On convertible tops, it is important to keep the front header strip soft and pliable. When you wash your convertible top, be sure to also clean the front header weatherstrip. After cleaning, spray it with a non-petroleum based silicone to prevent it from dry rotting. This will also help prevent dust and dirt from getting underneath the weatherstrip. The silicone may be purchase at your local hardware store.

## SHOW OFF YOUR SKILLS WITH "BEFORE & AFTER" WORTH 5% OFF

Send us a "Before" and an "After" picture of the car with a new Kee top. If we use your picture in our social media or advertising you will receive 5% off your next convertible top or vinyl top.
